Avoid Critical Data & Product Loss: NEW UPS Unit Available!

NEW Replacement Uninterruptable Power Supply Saves You from Critical Data Loss

The Uninterruptable Power Supply (UPS) unit provides backup power to enable your Mark system's main controller to properly shut down in the event of power loss (brownout, blackout, emergency stop). Without an operational unit in place, critical controller data and product loss are inevitable. New OEM versions are in scarce supply and have a poor repair history. To address this critical issue, Rite Track now offers an all NEW, replacement UPS to avoid costly loss and downtime.

Order your Rite Track UPS now and rest assured that you have a critical battery backup when you need it.

Rite Track's UPS features:

- Replaces Frequently Failing, Crucial TEL Mark Main Controller UPS
- Works with all Mark systems regardless of model, controller type
- 2 YEAR Warranty!
- Rite Track Repairable Unit
- LIMITED STOCK AVAILABLE NOW FOR IMMEDIATE DELIVERY
- Introductory pricing with this promotion

PN: 99-78632-01 (Standard)
PN: 99-78632-02 (European)
